DAB & DAVEY PUMPS ~ FIRE EXTINGUISHERS ~ AEGIS VIRGIN OILS

JUNE  
2013

To Our Valued Customers,

This year has many "important" anniversaries – 50 years of Porsche, 60 years of Queen Elizabeth on the throne, 50 years of our man Bruce in the McLaren racing team and of course 60 years since Hilary knocked it off. To be remembered for great achievements is one of the blessings of a life committed to the excellence required to attain it. Equally, history is strewn with results of people who after decades of good service make a poor judgement call and that's what they are remembered for. This is most evident in politics where survival after a major blunder is limited. The need for wisdom and integrity in the elected members of Parliament, Councils, Boards of companies, banks and financial institutions has never been greater. Many New Zealanders have suffered greatly as a result of unethical behaviour of some of the above which is a sad legacy to be remembered for.

---

*Integrity is the integration of one's life around his core values.*

---

On a brighter note, the dairy payout has been given a boost, the kiwifruit is nearly all in without any major climatic hiccups and the All blacks had their first win with Hansen at the helm.

With winter and Fieldays comes some extra sharp deals from many of our suppliers. Following are some of the special offers.

### **BOC**

The team at BOC must have been smoking or drinking something strong because they have radically chopped prices. Check these out for starters.

The **MMA130 amp Inverter welder** runs 12, 10 and even 8 gauge rods and Will run off a 6kva generator. They will run off a long extension lead without voltage drop and weigh a paltry 5kg. These were over \$400 but they are now just **\$258 incl GST!!**

Its bigger brother, the **MMA170** was over \$700. That is now just **\$345 incl GST!!**  
I told you they weren't in their right mind when they set these prices.  
But wait . . . there's more!

Then there is the **175 amp Multi Processor** – an arc, mig and tig welder complete with mig and tig torch, regulator and electrode holder. We have sold quite a number of these with awesome feedback from the purchasers. These are priced at **\$1046 incl GST** – another crazy price.

Some other sharp deals are:

- The Auto welding helmet, normally \$200, now just \$119.
- Gas sets at just \$345
- A 180amp single phase mig welder for \$690
- Single phase plasma cutter, cuts up to 9mm, for \$506

There are many more specials on offer, so call in and pickup a bargain. I guarantee you won't be disappointed. The deals are coming in thick and fast now.

### **Husqvarna Winter Warmup**

See the enclosed flyer relating to this promo. The free mowers with the ride-ons have all gone, but in their place we are able to offer you free, a choice of a black Husqvarna trailer, a 236E chainsaw or a 125BVX blower to go with the purchase of your new ride-on mower. Please note this offer is only available until 23 June or while stocks last, so you will need to be quick.

The push mowers LC18, LC19A and LC19AP on page 9 continue to sell well, together with chainsaws ranging from just \$399 for the 38cc 236E up to \$1999 for the 576XP.

The free carry case and bonus voucher for \$50 - \$150 of accessories is another reason sales have been going well.

If you are into the big chainsaws, namely the Husqvarna 390, 395, and 3120, there is a special offer until 23 June. Buy any one of these saws and you will receive a free pair of top quality chainsaw trousers valued at \$400.

Another popular product on page 9 has been the fully automatic battery charger for \$99. This comes with 3 harnesses that have a 3-colour LED showing at a glance, the charge level of the battery. These are ideal for ride-ons, quads, jet skis, boats, bikes and cars.

### **Air Conditioning Servicing**

Many cars have air conditioning which gets a good workout in the summer. But it is equally useful in the winter for demisting the inside of the car and windscreen. It is also advisable to operate the air con at least once or twice a month anyway to keep the seals in good condition. If you are having trouble with your vehicle's air con, give Jamie a call. He is our resident expert who can advise or repair or both.

### **New CRC Products**

I tried the De-Ice in a can when we had our first frost and it worked like magic. A quick spray across the top of the windscreen and another ½ way down, then turn on the wipers and you have an instantly clear windscreen. It's brilliant and won't harm glass, rubber, paintwork, plastics or the wallet as it's priced at around \$18.

Some of the new products available in the CRC range are Lock & Hinge Lube, Garage Door Lube, Nail It Panel Adhesive, Etch Primers and food grade lubricants.

### **Thought For The Month:**

Time is free, but it's priceless. You can't own it, but you can use it.

You can't keep it, but you can spend it. Once you've lost it, you can never get it back.

Have a great month. All the best from your friendly team at

**Lowes Hire and Engineering** – “so much more than just a hire centre...”
