DAB & DAVEY PUMPS ~ FIRE EXTINGUISHERS ~ AEGIS VIRGIN OILS

JULY
2014

To Our Valued Customers,

Winter has arrived, but it took till the shortest day to get here – maybe the calendar needs shifting! If you needed some positive in the midst of the cold, last month and the beginning of this month has certainly delivered.

Firstly the overall better result for this year's kiwifruit crop; the opening and planting out of the Tirohanga section of the Dunes Cycle Trail; the opening of a new shop in town, "Beauty and Beyond" by Joelle Bettridge in the old Rostgards building; the very worthy people's choice award received by Mike & Liane Carder-Dodd for their amazing Two Fish Café; and Mark Bruce who owns Beaver Kitchens for taking out 3 awards at the 2014 Master Joiner awards – a brilliant result. So was Bruce True's Queen's Service Medal to go with his award he had received previously for volunteer work. It's people like these who make Opotiki such a special place to live, work, eat and retire.

*Strong people stand up for themselves,
but the strongest people stand up for others.*

LPG Refilling

Customers have been taking full advantage of the special price for 9kg refills at just \$29.90. Garth, Jamie and I have filled dozens of bottles since we first kicked it off last month.

The 9kg SWAP'nGO cylinders are another popular alternative. Remember if you are in a hurry or your bottle has expired, it's a great way to get going again at a minimal cost. No more re-test costs. The only restriction is that your cylinder must be in a reasonable condition with no dents or rust.

Log Splitter, Firewood Saw for Hire

With the home fires burning, the log splitter is in hot demand. It pays to book in as early as possible to avoid disappointment. The towable firewood saw is also popular, as it greatly speeds up the time taken to cut up your logs.

Ultraviolet Water Disinfection System

How does UV work?

UV water disinfection is a natural, environmentally friendly process which does not add any chemicals into your water, nor change the water chemistry. Ultraviolet light energy inactivates harmful micro-organisms such as bacteria and viruses, effectively preventing them from multiplying and causing illness. The pathogens are destroyed in the time water passes through the disinfection chamber. E-coli, Cryptosporidium and Giardia lamblia are examples of waterborne micro-organisms that cause numerous gastrointestinal illnesses which are easily controlled with UV disinfection.

To go with your UV system, we have just received a new range of DAB household water pumps with a S/S pump end. These are very well priced and come complete with Mec controller which has loss of prime protection, and even flow for constant shower pressure. Our range of pressure tanks come with a 5-year warranty. Buying quality gives greater piece of mind.

Hard work can solve any problem, unless the problem is you are working too hard.

Air Conditioning

One of the best ways to demist your windscreen on the inside is with your air conditioner. If yours is not working well or not at all, give Jamie a call and he will be able to put it right for you. He has been servicing and repairing air conditioning for over 6 years, and looking after our fleet of 13 vans plus service vehicles.

Safety and Protective Clothing

Our 4-in-1 jackets have been a real hit with farmers, contractors and horticulturists for the last few years. The best part is the configurations it allows. The vest lining can be unzipped out. The vest is reversible, plus the sleeves can be unzipped too. They are awesome and all this will cost just \$140. Oh, and they also have fluoro tape, back and front for night time safety.

Husqvarna Cashback Promo

If you are in the market for a pro saw from 40cc to 120 cc, you've picked a good time. Husqvarna will send you a cheque depending on saw size, for \$100, \$200 or \$300 as a thank you for buying such a good quality product with 325 years of history. Don't forget the 236 chainsaw, 38cc and 14" bar for a sawn off price of \$329.

Thought For The Month:

"Next time you complain about the price of fuel, stop and be thankful you own a car.
Next time you complain about a messy house, stop and give thanks you have a family to make the mess. Next time you complain about your boss, stop and give thanks you have a job.
Live each day with an attitude of gratitude and you will be on your way to a happier life."

- DaveWillis.org

Have a great month. All the best from your friendly team at

Lowes Hire and Engineering – "so much more than just a hire centre..."
