JUNE
2015

To Our Valued Customers

What a month May has been. Firstly and "most importantly" on 15.5.15 (easy for an aging brain like mine to remember) our 4th grandchild was born. Brooke Marie Lowe entered the pool (it was a water birth in case you are wondering) at 9lb 8oz, a wonderful effort by Claire and of course Jamie.

When God blesses us with children it is an amazing event, but when GRANDchildren arrive it's extra special. With age comes time to reflect and when I look at that precious new-born child I am in awe at His creative handiwork that produces such a gem.

The greatest gift you can give someone is your time, because when you dedicate your time you are offering a part of your life that you will never get back.

The Opotiki area continues to produce some amazing young people, with Hugo Brown being another example. This young man is one of only 4 NZ students to attend the International Chemistry Olympiad being held in Azerbaijan. Grandfather, Jimmy Brown and father Doug have every reason to be very proud of Hugo's achievements so far. He is only 17, so his future is bright.

On Friday 22 May, Raewyn and I joined a large gathering of people at the Opotiki RSA to hear Caitlin give her award-winning speech. We were so glad we went. Her delivery and presentation was both captivating and emotional. Trevor shared with me afterwards that at Gallipoli he and Annette had tears rolling down their cheeks, and a group of Australians standing behind them were all doing the same – such was the emotion stirred by her presentation. Talking with Caitlin and her sister Graeson after the speech, it is clear to see the wisdom and maturity they both have. Future leaders for sure. Well done Trevor and Annette.

Never stop climbing and you will never be over the hill.

Fieldays Specials

The Fieldays are upon us and with it comes an array of specials from various suppliers. Over the last 5 years we found many of our suppliers are offering Fielday prices for the month of June, which allows customers to make Fielday savings without the expense of actually going there. Let's face it; being able to save big dollars in your home town has got to be good news. Husqvarna, Honda, Briggs & Stratton and a number of others are offering big savings to match the same savings of Mystery Creek. Here are some examples:

Husqvarna

Cash Back deal: 7 different pro saws from 40cc top handle through to the huge 120cc big boy. There are sharp prices plus a cash back offer of \$100 to \$300. This makes for a very economical top end saw.

Then there is the free Hatchet, Axe or Splitting Maul that comes with 8 different landowner model chainsaws. These are high quality axes ranging in price from \$59 to \$109. Come in and check these out – you'll be impressed.

The 236 chainsaw at \$329 is another of these superb specials. Just on 40cc with a 14" bar, it's a steal at \$329.

Honda

Check out these great deals on top quality products:

- 2" Pump, 600 L/min for just \$599 incl GST.
- 3" Pump, 1100 L/min, just \$699 incl GST
- 4.5kva Generator \$2299 incl GST

Briggs & Stratton

- Petrol Waterblaster, 2900 psi, 10.2L/min, \$949 incl GST.
This is a unique model as it returns to an idle when the trigger is released.
- Inverter Generator, 2kva, \$999

When you judge a woman by her appearance it doesn't define her - it defines you.

LED Floodlights, Spotlights, & Revolving Lights

Prices on these have dropped considerably, which makes for good buying now. Priced from under \$50 incl. GST they are excellent value. The more expensive models have 7200 lumens and a range of 150 metres.

Ultrasonic Parts Cleaner

We now have an Ultrasonic Cleaner machine in the workshop. Ultrasonic cleaning uses cavitation bubbles induced by high frequency sound waves (40,000Hz) to agitate a liquid. The agitation produces high forces on contaminants adhering to substrates like metals, plastics, glass, rubber, and ceramics. This action also penetrates blind holes, cracks, and recesses, making it ideal for carburettors etc. The other advantage is because you don't need to use any solvents, it is also very environmentally friendly.

Thought For The Month:

Be smart – the ideal man doesn't smoke, doesn't drink, doesn't do drugs, doesn't swear, doesn't get angry and doesn't exist.

Have a great month. All the best from your friendly team at
