MAY
2016

To Our Valued Customers,

Duck shooting is under way and in this area it is pretty popular. I think it was my grandfather who was a local champion with the shotgun. Sadly I wasn't blessed with his skill although I believe my cousin Kevin Lowe and his sons have. Keep up the family tradition you guys.

It's a big thank you to our team here who have been putting in the extra effort to cater to the high demand on our services over recent weeks. Any business is only as good as those they have to look after their customers, and thankfully we have a great team of people to do that.

Kiwifruit picking is now well underway and Opotiki is indeed fortunate to have such a resilient industry in its midst. When you go back 4-5 years to the height of the PSA issues, and how dismal it all looked, we have to be very thankful for those who didn't lose hope or faith in the future. This area has and will continue to be built on these strong willed and visionary individuals.

God doesn't give us what we can handle. He helps us handle what we are given.

Husqvarna Autumn Promo

Last month I highlighted the latest range of specials from the world's largest provider of forest and garden equipment. This has been an exciting month with heaps of sales right across the range, including push mowers, ride-ons, zero turns, weed eaters, chainsaws

and especially Husqvarna's new battery range. This segment of the market is really catching on and it is easy to see why. Battery powered products are very economical to run with far less moving parts. They are quieter, lighter and with less vibration than the petrol equivalent.

What Raewyn likes is no mixing of fuel or pulling starter cords – just put the battery in and squeeze the trigger. That's it – brilliant!
Check out all this and so much more in the Husqvarna Autumn promo enclosed, or online at www.husqvarna.com/nz

If you are looking to purchase a new chainsaw, pages 3 to 5 have on selected models free carry cases valued at \$105 or cash-back prezzie cards up to \$300. Well worth investing in.

*Do you ever get up in the morning, look in the mirror and think,
"That can't be right!"?*

Briggs & Stratton & Victa

With Briggs & Stratton now owning Victa, the combination has produced some excellent new products. Take the range of lawn mowers, headed up with the Victa Ultimate, a battery start, 19" self-propelled machine with a powerful B&S engine and 2 year warranty for only \$1199. A good reason they are popular.

B & S Inverter Generators

These are excellent value, quiet and very economical. 2kva for \$1299; 3kva for \$1999
We have put a 3kva into our hire fleet with customers preferring it over our standard generators because of the above mentioned features.

B & S Water Pumps

2" for just \$529, 3" for just \$839

B & S Water Blasters

These are from \$599 for the 2200psi model @ 7.2litres/min through to the very grunty 4000 psi, 10.2 litres/min for only \$2199.

Then there are the electric waterblasters from \$169 to the \$319 model which includes a rotary patio cleaner. When you factor in all the prices including GST it makes them great value.

LPG Cylinders – Bring your empties in to us; you have the option of refilling your cylinder or swapping it with a new Elgas Swap'n'Go bottle. If yours is out of test date but still in reasonably good condition, then a swap is the best way to go, with no testing cost. You can also buy a new one, filled and ready to go.

Emailing of Invoices and Statements

Thanks to all of you who have chosen to have your invoices and statements emailed to you.
.For the rest of you, if you would also like that option, please email us at Carol@LHEopotiki.co.nz so we can set you up in our system. We can email this newsletter as well.

Thought For The Month:

A summation of the 2 main candidates in the USA elections:

"The great illusion of leadership is to think that man can be led out of the desert by someone who has never been there." - Henri Nouwen

Thanks for supporting local, we appreciate it.

Have a great month. All the best from your friendly team at

Lowes Hire and Engineering – "so much more than just a hire centre..."
