DAB & DAVEY PUMPS ~ FIRE EXTINGUISHERS ~ AEGIS VIRGIN OILS

NOVEMBER 2018

To Our Valued Customers,

It's been so long since I last made contact via this format, I may need to reintroduce myself!!!!

The last newsletter was June and there has been lots happening since.

On the local scene it was great to read about Brian and Kathleen Young's success with their media business. "When you love what you do the passion comes through" and they both have plenty of it.

The Opotiki College Alumni Fund is up and running and has already attracted quite a number of donations. It's such a great concept which over time will give the College a regular income. That's guaranteed!!

If this idea sounds like you then contact the College or give me a call.

Generators

Last Sunday's power interruptions saw quite a few generators sold and hired.

The Briggs & Stratton range has proven very popular in both the inverter and standard range.

We have just received a new inverter model from Briggs & Stratton – the Q6500.

Yes, this is a 6,500 watt inverter generator and at present is only \$3,499.

That must be the best priced quality inverter generator on the New Zealand market today and it is from a well-known manufacturer.

We hope to have the 3000 watt Briggs & Stratton inverter generators back in stock in another 2- 3 weeks for those on the waiting list.

*I never thought I would be the type of person that would get up early to exercise:
I was right!!!*

2018 Husqvarna Spring/Summer Promotion

If you are looking for great deals on Husqvarna products you only need to step into our showroom. There is lots to tempt you like electric water blasters for \$199, 2 stroke blowers just \$299, push mowers from \$599, self-propelled mowers for only \$899, and if that is not enough, wait there is more! Zero turn ride-on's start from \$5799 – this range is proving very popular. Customers who switch to a zero turn ride on never go back to a conventional ride on. On the zero turn specials we have a super deal on the M-ZT61. This 61" fabricated deck model with a Kawasaki V Twin engine normally sells at \$13,299 but only while stocks last it is just \$10,999. That is such good value and is ideal for schools, Maraes and small orchards.

She said she didn't want to brag-but she can still fit into the same earrings she wore in high school.

Husqvarna Rider Collection Series

The patented auger-driven collection system on this new Rider will even pack the catcher when the grass is damp. Jamie and I have test driven this model when it is raining and can testify to it's effectiveness. Available in 2WD and AWD models with a 103cm or 112cm cutting deck, respectively, and starting from only \$13,999, they are impressive machines.

Husqvarna Robotic Automowers

Husqvarna Automower sales have doubled in the last 4 years, and when you look at the benefits they have over a regular mower, it's easy to see why! Husqvarna are world leaders when it comes to robotic mowers, with the first model introduced back in 1995 and they're now onto the 4th Gen models. Today's Automower is more capable than ever, able to mow in any weather and on slopes up to 45% (24°). And now, thanks to Husqvarna's Automower Connect app (on selected models), they've embraced the digital age, offering remote control, GPS tracking and automatic alerts right to the owners smartphone. Extremely low maintenance and almost zero running costs, they are far more cost effective than most people think. Ask us about them and pick up the latest catalogue free instore now!

Christmas hours

Monday 24th December through to Wednesday 26th December – **Closed**

Thursday 27th December and Friday 28th December - **8am – 5pm**

Saturday 29th December - **8am – 12pm & 4:30pm – 5pm**

Monday 31st through to Wednesday 2nd January – **Closed**

Thursday 3rd January and Friday 4th January – **8am – 5pm**

Saturday 5th January – **8am – 12pm & 4:30pm – 5pm**

Thought For The Month:

I don't mean to brag, but I just finished my 14 day diet in 3 hours and 12 minutes.

Have a great month. All the best from your friendly team at

Lowes Hire and Engineering – “so much more than just a hire centre...”
