MARCH 2019

To Our Valued Customers,

Wow March already- The end of the financial year, and stock taking – “what fun!”

I didn't get close to a newsletter for December, started one for January and February but I'm actually going to complete one for March.

Things are really cranking up as we head into the kiwifruit harvest and finding enough staff for picking and packing is a real challenge.

We are in need of a couple of staff too:

Firstly, a small motor mechanic - well he or she can be full size actually- but will need to be competent working on ride-ons, chainsaws and hire gear etc.

We also need a person for the front of the shop, “so I can think about retiring”.

This position requires somebody with good computer skills, mechanical knowledge and a good level of fitness as it does require lifting. Good people skills are also required as it includes serving our retail and hire customers.

If that's you, send me your CV to P.O Box 243 Opotiki, or email to jamie@LHEopotiki.co.nz

*Sometimes I forget how to spell a word,
so I change the whole sentence to avoid using it.*

Powerbuilt promo,

This has some ripper specials in it!!

A couple I will mention are the 3/8 DR 74piece Metric tool set – These are one of the best on the market and you receive an LED work light and the 1/2 DR 44 Piece Socket set. This is a beauty at a great price plus you receive a free screwdriver set with it.

If you want a good LED rechargeable work light, we have found the TSL1069 for \$39.95. Excellent!!

Husqvarna Sales Award!!!

We received a very pleasant surprise last week when the Husqvarna Territory Manager Tim Kilkolly, presented us with an impressive looking award for the largest sales growth in the region for the 2018 year. It's thanks to you, our customers, some great promotions from Husqvarna and a great effort from Jamie and the rest of the team that this award came about.

We've been the Husqvarna distributor for this area for over 30 years and are proud of the association we have with such a long established and trusted brand.

You never really realise what you have till it's gone – Toilet paper is a good example.

Staying with the Husqvarna theme **Battery products**

Husqvarna battery range is growing in popularity and it's mainly because of the great testimonies of people who have brought them. We have a number of these products in our hire fleet which is an ideal way for prospective buyers to try before they buy.

Call in and check out these Eco friendly, Low maintenance, quiet, easy to operate machines-
You will be impressed!

Husqvarna rider collect

What an awesome mower. It's patented Auger- Driven collection system will pack the catcher even when the grass is wet. Available in 2WD and 4WD options with a 103cm or 112cm cutting deck - they are well worth checking out. We have a number of happy customers using these machines already.

*If someone threw a rock and knocked you off your donkey,
would you be considered stoned off your ass??*

Husqvarna Bulletin Re Lithium Ion Batteries – Transport and Storage.

To prolong the life of Husqvarna Lithium Ion batteries and ensure maximum efficiency, it is important to remove batteries from all Husqvarna battery products during storage and transportation, as per the operator's manual.

If batteries are left fitted to units for a prolonged period of time this could result in the battery discharging to a point where it is unable to be recharged.

Celia Lashlie's movie

Raewyn and I saw this on Monday night. It was the about this amazing lady and her life long crusade against family violence in NZ. It is both enlightening and confronting as well as an emotional journey. It's worth going to if you possibly can.

That's the lot for this month, Thanks for making 2018 such a great year.

Thought For The Month:

Children seldom misquote you. In fact, they usually repeat word for word what you shouldn't have said.

Have a great month. All the best from your friendly team at

Lowes Hire and Engineering – *“so much more than just a hire centre...”*
